Merchant, HOSPET.

To The Collector,
BELLARY.

Sir,

Mining -Certificate of approval - Hospet taluk and Town - Grant of application of Sri. Kolagada Chennabasappa - - further information called for - Submitted.

Ref: Your D.O. No.6004/49 A1. dated 18-10-'49.

I submit herein the correct name of Minerals applied for by me.

Red Oxide: It is an oxide of iron. The percentage of Iron in this ore is rather low.

Red Ochree: This Mineral is mentioned at page 17 of the Mining Manual.

Red Earth: This is common surface Red earth, found in large quantities in Sandur State and other places. This is not a Major Mineral. It does not contain any percentage of iron or other Minerals.

Iron: This is an other variety of iron differenct from Red Oxide The iron contents are in a purer fror, and the percentage is very high. This ore of Iron is found in large quantities in Bellary District. As this iron ore is of a differenxt composition from Red Oxide, this ore has been specially included in my application to get over any technical difficulty that might arise at a further date.

Corundum: This mineral is mentioned at page 10 of the Mining Manual.

Manganese: This Mineral is mentioned at page 14 of the Mining Manual

Barytes: This mineral is mentioned at page 8 of the Mining Manual.

Bauxite: This mineral is mentioned at page 8 of Mining Manual

Galena: This mineral is the sulphate of lead commonly known as galena mentioned at page 48 of "Indian Mining "By J.A. Dunn D.Sc. Superintending Geologist, Geological Survey of India.

Soap Stone: This is otherwise known as Talc or Steatite mentioned at page 19 of the Mining Manual.

Hence I request you that the Certificate of Approval may kindly be granted to me at an early date.

Hospet.
